Ref: Application # 10/711,209 and Notice to file missing parts of nonprovisional application

Customer Service Center,

In accordance with the 'Notice to File Missing Parts of Nonprovisional Application' received from your office please find attached, as requested; 1) Signed oath or declaration form; 2) revised specification, claims, and abstract pages submitted revised for formatting compliance of 1 ½ or double space requirement, 3) credit card payment form for amount related to late filing or oath or declaration surcharge, per Notice Missing Parts.

The additional claims fees requested are not included in the credit card payment authorized in the attached. The original application filing was performed using the USPTO's electronic filing software (ABX and ePave) and all fees were calculated within the ePave filing. Based on the inability to make corrections to the electronic versions filed in order to aptly determine exact claims and/or subclaims included in the original application, the attached copy of the patent detailed should be used as replacement to the original electronic information filed. Based on discussions with the Office of Initial Patent Examination (OIPE), electronic corrections/resubmissions was not an available option. I respectfully request that the additional claims fees requested be reexamined based on the revision include here, and if additional fees are required, please notify of amount required for continued processing of this application.

Additionally, the late fee for unsigned oath or declaration form should be reconsidered since the original electronic application filing software used did not allow electronic entry/signing of this form. Appreciate any consideration that may be given regarding the 'late or oath or declaration' based on this lack of ability in the initial electronic filed version.

Sincerely,

Morgan Cicero Patrick  
Inventor
